Experience

Mechanical Engineering | Solution Services | 08/25 - Present

- 3D design and modeling using Autocad, Navisworks, Advanced Steel, and Inventor
- Worked on replacing multiple existing condensate lines for Dominion Energy Urqhart
- Modeled existing piping for a hot binder tank at AGY Aiken

AFJROTC | Irmo, SC

Flight Commander | 08/23 - 05/24

Worked to develop the next generation of cadets in the AFJROTC program. Led a class of 16 cadets throughout most of the school year, teaching them how to wear uniforms, basic cadet knowledge, and basic airplane knowledge and history. Have given others leadership positions to help foster their leadership abilities while overseeing their work.

AFJROTC | Irmo, SC

JLAB Commander | 08/23 - 05/24

Led my AFJROTC's academic team in a national competition. We proceeded to the second round before the in-person competition in D.C. Also held tutoring sessions for those that were in risk of failing classes in the unit.
